

Disposable DETRUNCATION restrainers

The economical restrainer for rodents

Product codes:

Reference: DC-00

Product description:

Make injections and decapitation quicker and easier with DecapiCones. These tapered plastic film tubes provide quick and easy restraint of rats, mice, and other small animals. I.P. injections can be made directly through the film! DecapiCones restrain post-decapitation kicking and prevent personal contact with feces or urine.
